

## Summer Term Week 1.

Hi, welcome to the new term – even though it is a strange start. We have set some English, Maths (which is split into Year 3 and Year 4), Science and Creative tasks for this week. We will hopefully add this type of planning each week.

We would like you to try to complete one English and one Maths lesson each day if possible and then choose when to complete the Science and Creative work. If it is possible we would love to see pictures of your work, which you can send to your class teacher on class dojo or to our email addresses. Also if you have any questions please contact us.

### Maths Year 3

Times table rock stars can be on-going but for the main Maths we will be following the White Rose Maths Hub which follows the same themes we would have been covering in school. Each lesson is on the page which the link on Monday will take you to.

Monday Equivalent fractions <a href="https://whiterosemaths.com/homelearning/year-3/">https://whiterosemaths.com/homelearning/year-3/</a> Lesson one  Additional activities for the week. Cutting sandwiches into halves, quarters, eighths. Slicing a cake or pizza into thirds and sixths.	Tuesday Equivalent fractions Lesson 2	Wednesday Compare Fractions Lesson 3	Thursday Order Fractions Lesson 4	Friday Maths Challenge !

### English Year 3 and Year 4

This week the English sessions will build up to a character description. The character description will be based on the main character of a short film – Secret Agent Walter Beckett. Children may need to watch the film several times over the week to recap their memory.

Monday	Tuesday	Wednesday	Thursday	Friday
Watch the film – Pigeon Impossible <a href="https://www.literacyshed.com/pigeon-impossible.html">https://www.literacyshed.com/pigeon-impossible.html</a>	Watch the film again.	Discuss Agent Walter Beckett – what does he look	Hot seating Your child should pretend to be Agent Walter	Children to write a character description of Agent Walter Beckett.
Discuss the following questions: 1. Where does the film take place? Discuss where this in the	Create a detailed comic strip of the story. Include illustrations, short narration of story and speech			

			<p>jump into your briefcase?</p> <p>3. How could this have been avoided?</p> <p>4. How did you save the day?</p> <p>5. Tell me about your job. Do you enjoy it?</p>

## Science

Our topic for this term is humans and other animals. We have already learnt about skeletons and muscles in class so for the next few weeks we will look at how to keep our bodies healthy.

This weeks investigation- [What type of food does our body need and why?](#) **Task 1-** Use the link below to find out about the food groups and complete the sorting game.

<https://www.bbc.co.uk/bitesize/topics/zrffr82/articles/zppv4j>

**Task 2-** plan a meal for your family using all the food groups- look at the food you have in your kitchen for ideas. Take a photo of your menu- or even better make the meal with your family and take a photo explaining why it is so good for you.

Creative Curriculum - This term we will be looking at a topic under the heading Giants- this will be fictional giant, giant features in the landscape and giant sporting achievements. So I thought we would start with the brilliant BFG. There are lots of clips on You tube and some of you may have access to the film- we did watch some of it recently in class.

Task- To draw a picture of the BFG- <https://blog.whsmith.co.uk/quentin-blake-how-to-draw-roald-dahls-the-bfg>  
Use this link to see how Quentin Blake drew the character and re-create your own version using pencil.

Get active !

Task- make up a dance routine to your favourite song and then teach it to someone in your family.
