

## Summer Term Week 7

Hi, Hope you enjoyed last week's work, we have seen some wonderful pictures of your Artwork, remember you can earn dojos if you send some photos of your work.. We will continue with the changes we made to the planning last week but I have left the list below just in case anyone missed it and explained which Maths week it is this week.

1. **Maths-** We are now subscribed to White Rose as a school so I have downloaded Summer Week 7 and placed all the videos and worksheets you need into a folder on the website called **Maths Week 7 – you can then choose the appropriate year group folder-** [Maths Year 3 Week 7 Lessons and Worksheets](#). Or [Maths Year 4 Week 7 Lessons and Worksheets](#). As we had two weeks for half term we will be doing last weeks lessons so don't worry if it says **W/C 8th June-** that is the week you need to do. Please contact me if you have any questions or problems at [claire.dunsire@sandylane.bradford.sch.uk](mailto:claire.dunsire@sandylane.bradford.sch.uk).
2. **Creative-** These will vary from week to week- sometimes they will be Art based and sometimes other areas like Geography, History or social and emotional
3. **Speaking and Listening-** Every few days I will send a ping out with a question or thought for you to discuss with your family- just like we do we have our chats in class, use the same rules we use- taking turns and listening respectfully – even if you don't agree !- These discussions do not need to be written down in any way- if you want to share your thoughts on class dojo with us it would be lovely to hear.

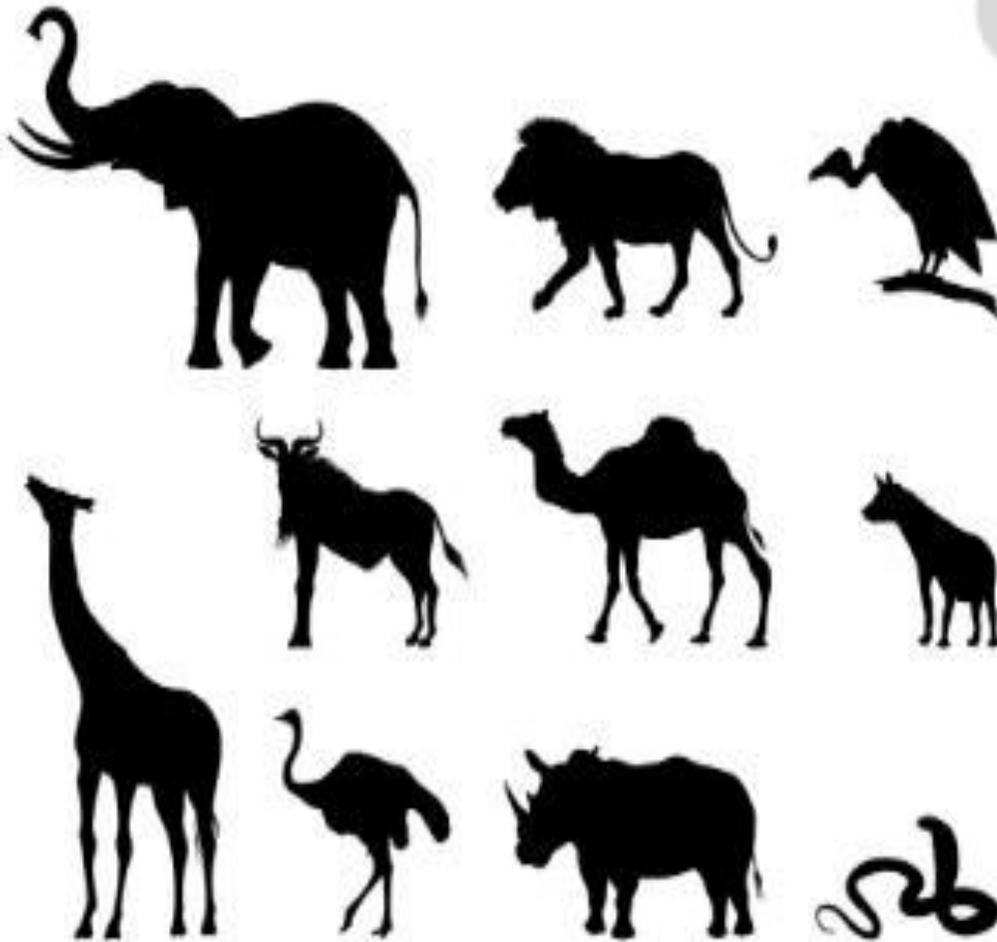

This term the Maths and English are the main tasks to complete and then your child can choose from the other areas. We have tried to be as clear as we can with the learning in order to support you at home but remember you can contact myself or your class teacher if you have any questions as we are happy to help. Mrs.Dunsire

### English Year 3 and Year 4

This week we will be writing a diary based on a clip from The Lion King. We will be considering how Simba is feeling when he is introduced to the animal kingdom as their next leader.

<p>Monday</p> <p>Open to powerpoint titled 'English week 7'  <a href="https://www.youtube.com/watch?v=pFBGvWit_O4">https://www.youtube.com/watch?v=pFBGvWit_O4</a></p> <p>Watch the first part of the clip (up to 49 seconds)</p> <p>Answer the questions about the clip. Think carefully about your answers. Each answer should be 2-3 sentences long.</p>	<p>Tuesday</p> <p>Open powerpoint titled 'English week 7'. Watch the video on nouns, verbs and adjectives. Parents give your children some quickfire words for them to categorise. Look at adverb</p>	<p>Wednesday</p> <p>Open powerpoint titled 'English week 7'. Complete the zone of relevance.</p>	<p>Thursday</p> <p>Open powerpoint titled 'English week 7'. Complete Simba's thoughts and feelings.</p>	<p>Friday</p> <p>Open powerpoint titled 'English week 7'. Recap features of a diary. Write diary entry of Simba's thoughts.</p>
---	---	--	---	---

	<p>slides. Sort the words into the correct categories.</p>

## Science

Continuing with our African animals theme- Can you identify these animals from their silhouettes ?

Do you want to be a Quizmaster ?

Now it's time to research and write a quiz for your family all about African animals. You could do the quiz with your family at home or use skype or zoom to do a virtual quiz with some friends. You can use the website below- you need to write at least ten questions for the quiz to be worthwhile. Remember, as the quizmaster you need to have found the correct answers as well as writing the questions !

<https://www.planbee.com/blog/african-animal-facts/>

Creative Artwork.

Below are some examples of different African animals prints. I would like you to try to re-create these using different materials.

For example- Could you use a stick from your garden and some paint to create the zebra pattern ?

You could use different small pebbles or stones and print with paint to create some of the patterns.

Some patterns could be created using crayons

Or you can think of your own way to create the patterns.

Finally- Can you match the pattern to the animal ?
